Bibliography:

An Index of Articles Published in the International Journal of Oral Myology/Orofacial Myology

Roberta B. Pierce, M.A.T.

The International Association of Oral Myology was founded in 1972. Three years later, in January of 1975, the first issue of *The International Journal of Oral Myology* was published with Thomas J. Robertson as Editor-in-Chief. From 1975 through 1980, the *I.J.O.M.* was published four times a year. In 1980, the name was changed to *The International Journal of Orofacial Myology* and publication was changed to three times a year.

The current issue, November 1991, marks another turning point for the *Journal*. Effective 1992, *The International Journal of Orofacial Myology* will be published once a year as a Monograph.

It seemed appropriate at this time to acknowledge our appreciation to those individuals who have dedicated so much time and energy toward making the *Journal* a professional publication. The I.A.O.M. wishes to thank

those who have served as Editor: Tom Robertson (1975-1977), James Wood (1977-1979), Elnita Stanley (1979-1981), Majorie Snow (1981-1986), Patricia McLoughlin (1986-1989), Robert Mason (Guest Editor, March 1988), and Forrest Umberger (1990-1991).

The position of Managing Editor is vital to the publication and distribution of the *Journal*. The I.A.O.M. sincerely appreciates its Managing Editors: Holly Anson (1979-1981), Richard Barrett (1981-1983), Roberta Pierce (1983-1986), Catherine Jackson (1986-1989), and Janie van Reenen (1990-1991).

As we look forward to the new format for the *Journal*, we look back and say thank you to all the authors who have made the *I.J.O.M.* possible. This Bibliography lists the articles which have been published in *The International Journal of Oral/Orofacial Myology*.
